Mr. Morton Warnow
Post Office Box 223303
Hollywood, FL 33022

Dear Mr. Warnow:

Your letter to President Clinton was referred to the Office of Special Education and Rehabilitative Services (OSERS) by Marsha Scott, Deputy Assistant to the President, Director of Correspondence and Presidential Messages.

We find your modem signal broadcast programming technology most interesting and may have potential for greater communication access for deaf and hard-of-hearing people. The National Institute on Disability and Rehabilitative Research funds research and demonstration projects. An application is enclosed.

In addition, the Office of Special Education Programs, Captioning and Adaptation Branch, Division of Educational Services lists Absolute Priority 5-Research on Captioning as a Language Development Tool. You might consider submitting an application to this priority to conduct research to demonstrate the potential of the technology to enhance literacy. An application is enclosed.

We hope this information is helpful. Best wishes with your efforts in promoting this technology.

Sincerely,

Judith E. Heumann
